My passions are for creating things and helping people. My greatest assets are high attention to detail, creativity, and a knack for explaining things, which are demonstrated in my experience as a writer, potter, editor, and tutor. At the same time, my capabilities for logical and programmatic thinking have been honed by my training in mathematics, philosophy, and software engineering.

SKILLS

Technologies: HTML | CSS | JavaScript | Ruby | Java | SQL | jQuery | React | Handlebars | Sass | Bootstrap | AJAX | PostgreSQL | Rails | 3rd Party APIs | Unix CLI | cURL | Git/GitHub | MongoDB | Mongoose | Heroku | Node.js | Express.js

Spoken Language: Conversational skills in Spanish and Hebrew

SOFTWARE EXPERIENCE

General Assembly, *Software Engineering Immersive*, Boston, MA

January-April 2020

12-week/500+ hour immersive course

Full stack web development, including front-end and back-end technologies, best practices, agile team workflow, Git/GitHub version control, and computer science fundamentals

Projects

Let's

Full stack single-page application for group decision-making using alternative voting methods such as instant-runoff, approval voting, and Borda count. Invitees to an election can make nominations and vote.

Tech Used: React.js, Ruby on Rails, JavaScript, HTML/SCSS, PostgreSQL

Bucket List

Full stack single-page application allowing users to create a bucket list, as well as view location-based items on a map using the Google Maps API. Built in collaboration with three other developers.

Tech Used: Handlebars, Express.js, JavaScript, HTML/SCSS, MongoDB, Mongoose, Passport, Node.js

Vote Better

Full stack single-page application for creating and storing elections; a precursor to Let's.

Tech Used: Handlebars, Ruby on Rails, JavaScript, jQuery, HTML/SCSS, AJAX, Bootstrap, PostgreSQL

T3

Front-end single-page application for playing tic-tac-toe and compiling stats based on results stored by a third-party API.

Tech Used: JavaScript, jQuery, HTML/SCSS, AJAX, Bootstrap

EDUCATION

Wesleyan University, Middletown, CT

2015

Bachelor of Arts; Major: Mathematics; Concentration: Philosophy

ADDITIONAL EXPERIENCE

AcademicAlly, *Subject Coach*, Philadelphia, PA

August 2016-February 2018

Tutored high school and college students in math and sciences.

PURSUIITS

Pottery, juggling, sports analytics, creative writing, classical piano and viola
